EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. George W. Hartnell, III, Reg. No. 42,639 on October 20, 2005.

2. The application has been amended as follows:

Claim 7, line 1, "as set forth in claim 6" should be -- as set forth in claim 1 --;

Claim 10, line 2, insert -- the -- between "includes" and "re-transmission";

Claim 13, line 2, insert -- the -- between "includes" and "re-transmission";

Claim 19, line 12, "a leading side" should be -- the leading side --;

Claim 25, lines 1-2, "as set forth in claim 24" should be -- as set forth in claim 19 --;

Claim 26, line 5, "a leading side" should be -- the leading side --;

Claim 26, line 7, "a tailing side" should be -- the tailing side --;

Claim 31, line 8, "a tailing side" should be -- the tailing side --;

Claim 32, line 3, "a leading side" should be -- the leading side --;

Claim 32, line 4, "a tailing side" should be -- the tailing side --;

Claim 34, line 11, "a leading side" should be -- the leading side --; and

Claim 39, line 16, "a tailing side" should be -- the tailing side --.

Specification

3. The corrected or substitute specification was received on 5/21/04. The specification is acceptable.

Drawings

4. The corrected or substitute drawings were received on 5/21/04. The drawings are acceptable.

Allowable Subject Matter

5. **Claims 1, 3, 7-19, 21 and 25-46** are allowed. These claims will be renumbered as 1-38.
6. The following is an examiner's statement of reasons for allowance:

Independent claim 1 defines a printing system for printing print data created by and transmitted from a host device. The claimed system comprises a printing device and a re-transmission requesting means which requests the host device to re-transmit the second print data to the printing device when the print data are to be printed out in multiple copies and the memory capacity is not enough to store the second print data initially. The claim distinguishes over the prior art in that "the memory means stores a tailing side of the print data as the first print data and stores transmitted data from the host device from a leading side, and when stored data reaches the memory capacity, the memory means overwrites the stored data from the leading side so as to store the transmitted data."

Independent claims 18, 19, 34-36 and 39-46 claim same/similar limitations claimed for claim 1.

Independent claim 14 defines a printing system for printing print data created by and transmitted from a host device. The claimed system comprises a printing device and a transmission requesting means which requests the host device to transmit the second print data to the printing device when the print data are to be printed out in multiple copies and the memory capacity is not enough to store the second print data initially. The claim distinguishes over the prior art in that "when the print data exceed a memory capacity of the memory means, the print data are printed out and comprise the first print data, which correspond to print data within the memory capacity of the memory means, and the second print data, which correspond to print data exceeding the memory capacity of the memory means and which are transmitted from the host device."

The most relevant prior art Kono (Japanese Patent Publication No. 10044529) teaches the printing system comprising the re-transmitting requesting means for requesting the host device to re-transmit the second print data to the printing device. However, Kono does not teach the applicant's combination of the re-transmission requesting means and the claimed memory means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
